County/Independent City Name	Injuries:	Fatalities:	Evacuations:
Currituck, NC	None	None	0
<p>Minor beach and dune erosion was reported along the Currituck County shoreline with water levels of 2 - 2.5 MHHW. In addition, sustained winds of tropical storm force impacted much of coastal Currituck County. A 34 kt sustained wind was reported at the Carova Beach Fire Department in far northern Currituck County. However, at this time no structural damage has been reported.</p>
