

Radial Ice vs. Flat Ice

Radial Ice Measurement		Flat Ice Measurement	
<p>Measure the ice thickness on both sides of the branch then add that up and divide by 2</p>	0.04"	0.10"	<p>Measure the ice thickness on a flat surface</p>
	0.10"	0.25"	
	0.20"	0.50"	
	0.30"	0.75"	
	0.40"	1.00"	
	0.50"	1.25"	
	1.00"	2.50"	
<p>Note: radial ice measurements are roughly 40% less than that of a flat ice measurement</p>
