

# July 2023 Climate Summary

A sluggish start to the monsoon resulted in much drier than normal conditions. The lack of rain also allowed for hot temperatures. Most locations in northern Arizona recorded their hottest July on record.

## July Rainfall Totals

Blue Ridge RS	0.64"
Grand Canyon North Rim	0.90"
Bellefont NWS	1.00"
Window Rock	0.01"
Williams	1.24"
