

FLAGSTAFF, AZ

NATIONAL WEATHER SERVICE

May 2023 Climate Summary

An unusual weather pattern in the middle of the month brought significant rainfall to portions of northern Arizona, though northern Coconino County and the Little Colorado River valley missed out. Monthly temperatures were near normal.

| | Average Temperature | Departure from Normal | Precip | % of Normal Precip |
|------------------|---------------------|-----------------------|--------------|--------------------|
| FLAGSTAFF | 51.6° | +0.3° | 1.26" | 164% |
| PRESCOTT | 61.1° | -0.9° | 1.93" | 411% |
| WINSLOW | 64.2° | +0.5° | 0.06" | 20% |
