ANZ535 3 S Wdrow Wilson Mem	01	1728EST	Tidal Potomac Key Bridge To Indian Hd Md		0	0			Marine Tstm Wind (G50)
Trees were downed along the George Washington Parkway along the Potomac River shoreline.									
ANZ535 2 E Woodbridge	01	1805EST	Tidal Potomac Key Bridge To Indian Hd Md		0	0			Marine Tstm Wind (G50)
Trees were downed on Mason Neck along the Potomac River shoreline.									
ANZ535 8 SW Wdrow Wilson Mem	01	1915EST	Tidal Potomac Key Bridge To Indian Hd Md		0	0			Marine Tstm Wind (G50)
Trees were downed in Mt. Vernon along the Potomac River shoreline.									
ANZ537 Lewisetta	24	1700EST	Tidal Potomac Cobb Is Md To Smith Pt Va		0	0			Marine Tstm Wind (G38)
A wind gust of 44 MPH was recorded.									
ANZ537 5 W Coltons Pt	28	0916EST 1003EST	Tidal Potomac Cobb Is Md To Smith Pt Va		0	0			Waterspout
A "couple" of waterspouts were spotted near Cobb Island.									
ANZ536 Route 301 Bridge	28	0950EST	Tidal Potomac Indian Hd To Cobb Is Md		0	0			Waterspout
A waterspout formed near Morgantown and moved north toward the Route 301 bridge. This waterspout dissipated just before striking land south of Faulkner.									
ANZ532 8 E Annapolis	28	0957EST 1005EST	Chesapeake Bay Sandy Pt To N Beach Md		0	0			Waterspout
A waterspout was reported near the Bay Bridge just off the Queen Anne County shoreline.									
At least four waterspouts formed on the Tidal Potomac River and the Maryland Portion of the Chesapeake Bay between 10 and 11:30 AM EDT on the 28th. The waterspouts caused no damage, but one near the Route 301 bridge on the Tidal Potomac River came close enough to land that a tornado warning was issued for southern Charles County. The funnel dissipated before the storm came ashore just south of Faulkner.									

### DISTRICT OF COLUMBIA

DCZ001	District Of Columbia				0	0			Excessive Heat
High pressure off the Atlantic Coast pumped hot and humid air into the Mid-Atlantic region. This caused high temperatures to reach between 95 and 100 degrees August 1st through the 5th. Dew points in the upper 60s to mid 70s forced heat indexes to soar to between 98 and 110 degrees. At Washington Reagan National Airport, a record high of 99 degrees was set on the 1st and a record high of 100 was set on the 2nd. Highs at National Airport were 95 degrees or above for 6 consecutive days, making this heat wave the hottest in five years.									
District Of Columbia Southeast Portion	03	1530EST	District Of Columbia		1	2	30K	Thunderstorm Wind	
A man was killed and two women were injured when a tree fell onto a car. Other trees were also downed nearby.									
A thunderstorm with high winds moved through the District around 4:30 PM EDT. Several trees were downed in the southeast portion of the city. One large tree was downed onto a van carrying three people at the intersection of 17th and E streets SE. The backseat passenger, a 35-year old man, was killed. Two women, ages 41 and 53, who were sitting in the front seat sustained minor injuries. Trees were also splintered on Capitol Hill, littering yards and streets with debris. Other trees were downed onto Massachusetts and Pennsylvania avenues. M35VE

<b>01</b>	<b>1000EST</b>				<b>7</b>	<b>0</b>			<b>Excessive Heat</b>
<b>05</b>	<b>2000EST</b>								

High pressure off the Atlantic Coast pumped hot and humid air into the Mid-Atlantic region. This caused high temperatures to reach between 92 and 100 degrees August 1st through the 5th. Dew points in the upper 60s to mid 70s forced heat indexes to soar to between 98 and 110 degrees. Seven residents of Baltimore County and Prince George's County succumbed to the excessive heat. In Baltimore City, a 56 year old man and a 74 year old man were found dead in their home on the 5th. On the 6th, an 88 year old man was found dead in his home. On the 7th, a 36 year old man being held in jail was found dead in his cell from heat related causes. In Baltimore County, a 30 year old woman was found dead in her home. In Prince George's County, a 51 year old woman died in her home on the 5th. On the 7th, a 46 year old man died from a combination of drug use and the heat. In Frederick County, eleven people in participating in an outdoor activity in Ijamsville were treated for heat illnesses. The heat was also blamed for buckling pavement on Interstate 70 near the Route 355 exit. Several regional power companies noted record energy consumption during this heat wave, the hottest in 5 years. F51PH, M46OT, M36OT, M56PH, M74PH, M88PH, F30PH

### MARYLAND, Central

#### Allegany County

**3 W Flintstone**      **02**    **1645EST**      **0**      **0**      **Hail(1.50)**  
Ping pong sized hail covered Interstate 68.

#### Baltimore County

**North Portion**      **02**    **1848EST**  
                                 **1900EST**      **0**      **0**      **40K**      **Thunderstorm Wind**  
Numerous trees were downed.

#### Harford County

**Northwest Portion**      **02**    **1912EST**      **0**      **0**      **5K**      **Thunderstorm Wind**  
Trees and wires were downed.

Thunderstorms with large hail and damaging winds moved through the northern Portion of Maryland between 5:30 and 8:30 PM EDT. In Allegany County, ping pong ball sized hail covered Interstate 68 three miles west of Flintstone. In Baltimore County, multiple trees were downed onto Graystone Road in Graystone. Just west of Interstate 83 in the Belfast area, trees were downed along Belfast Road. In Monkton, forty to sixty trees up to 8 feet in diameter were uprooted or snapped. Near Gemmills, two trees were blocking the intersection of White Hall and Vernon roads. Just northeast of Gemmills on Garrett Road, numerous trees and power lines were downed onto a home in the 2800 block. A bulldozer had to be called in to clear the road due to the amount of downed trees and power lines before officials could respond to the home. In Harford County, high winds downed trees in the Norrisville, Shawsville, and Jarrettsville areas. One tree was downed onto a power pole on White Hall Road. Houcks Road was blocked by a downed tree. Wires were downed at the intersection of Jarrettsville Pike (Route 146) and Pocock Road in Taylor.

#### Baltimore County

**1 NE West Liberty**      **02**    **2324EST**      **0**      **0**      **10K**      **Thunderstorm Wind**  
Trees were downed.

#### Baltimore City (C)

**Baltimore**      **03**    **0045EST**      **0**      **0**      **100K**      **Thunderstorm Wind**  
Several trees were downed in Patterson Park. Power lines and cars were damaged in the surrounding community.

Thunderstorms with high winds moved through Baltimore County between Midnight and 2 AM EDT on the 3rd. Just northeast of West Liberty, trees and power lines were downed onto Old York and West Liberty Roads. In Baltimore, numerous trees were snapped or uprooted in Patterson Park and the surrounding neighborhood. Some branches downed electrical wires and at least one tree fell onto a car. A 70-foot flag pole was also downed. Several homes around the park sustained shingle and gutter damage. Numerous lightning strikes were also reported with this storm.

#### Frederick County

**Frederick**      **03**    **1303EST**      **1**      **0**      **Lightning**  
A 52-year old man was killed by lightning while standing on his deck on Millstream Drive. M52OU

#### Frederick County

**Frederick**      **03**    **1313EST**      **0**      **2**      **Lightning**  
A 17-year old lifeguard at a swimming pool and a 36-year old man were injured by lightning.

#### Allegany County

**Cumberland**      **03**    **1330EST**      **0**      **0**      **5K**      **Thunderstorm Wind**  
Trees and power lines were downed.

#### Baltimore County

**South Portion**      **03**    **1351EST**      **0**      **0**      **Hail(1.00)**  
Quarter sized hail fell 10 miles northwest of Baltimore.

---------------	----	--------------------	--	--	---	---	--	--	-------------------

Quarter sized hail fell.

Several thunderstorms with high winds, large hail, and frequent lightning moved through western and central Maryland between 2 and 6 PM EDT. In Allegany County, a few trees and power lines were downed in Cumberland. Pea sized hail was also reported. In Frederick County, a 52 year old man was killed by lightning while standing on the back porch of his Frederick home. It was not raining at the time he was struck. A 17 year old swimming pool lifeguard at Fort Detrick was injured when lightning struck nearby. He had just evacuated the pool and was walking toward the pool house when he was struck. A 36 year old Frederick County man was also injured by lightning in an unknown location. At least 4 homes across the county were damaged by lightning and 2000 bales of hay were set on fire near Emmitsburg. Wind damage was reported in Park Mills. Marble to quarter sized hail fell just south of Frederick for nearly 10 minutes. In Carroll County, dime sized hail fell in Eldersburg. In Baltimore County, quarter sized hail fell 10 miles northwest of Baltimore. Trees were downed in Owings Mills. In Howard County, quarter sized hail fell in Scaggsville. A home on Talon Court in Clarksville burned to the ground after being struck by lightning. In Montgomery County, trees were uprooted, roofs were damaged, and windows were blown out in Derwood. Many large branches were downed in Layhill where 2.5 inches of rain fell. A tree was downed onto Cashell Road in Olney. In Prince Georges County, penny sized hail fell in Camp Springs. Pea sized hail fell in Bowie and College Park. Trees were downed in Seat Pleasant. Several tree limbs were downed in Hyattsville. A house in Suitland caught fire after being struck by lightning and one person was slightly injured at the scene.

Trees were downed onto houses.

Thunderstorms with large hail and damaging winds pushed through several Northern Virginia communities between 6 and 9 PM EDT. In Alexandria, nickel sized hail was reported. Trees were also downed in the city. In Fairfax County, the Mason Neck area was hardest hit. High winds downed numerous trees, including 40 that were blown over on 20 acres of private property along the Potomac River just north of Gunston Hall. A garage was heavily damaged by a downed tree. Extensive tree damage was also reported in Pohick Park. So many trees were downed that trails and picnic areas had to be closed. A second storm caused damage in the Mount Vernon area. A number of trees were downed onto yards and homes in the Waynewood and Stratford Landing subdivisions. In the Belle View area, trees were downed on the George Washington Parkway and Morningside Lane. In Prince William County, numerous trees were downed along the Route 1 corridor from Woodbridge to Dumfries. Marble sized hail was reported at the Quantico Marine Corps Base. In Stafford County, dime sized hail fell one mile north of Widewater.

### VIRGINIA, North

lost their roofs to high winds. Roof debris crashed down onto nearby streets and utility lines. Numerous trees were downed and marble to dime sized hail fell. Two inches of rain fell in 30 minutes. In Bridgewater, heavy downpours caused a storm drain to be pushed out of the ground. Pea sized hail was also reported. In Shenandoah County, golfball sized hail fell in Mt. Jackson. Trees were downed in Fort Valley. In Warren County, 2.17 inches of rain was recorded at Manassas Gap. Minor flooding was reported in the northern and eastern portions of the county. Trees were downed in Edinburg. A home in the Point of Woods area was destroyed by a lightning fire. In Frederick County, dime sized hail was reported in Winchester.

In Fauquier County, a tree was blown onto a truck in Midland. A man inside was trapped, but uninjured. In Culpeper County, trees were downed onto Edwards Shop Road and Kelly Ford Road in the southeastern portion of the county. In Orange County, trees were downed in Lake of the Woods. One tree fell onto a car and two trees fell onto homes. In Spotsylvania County, dime sized hail fell in Fredericksburg. Trees were downed 12 miles west of Fredericksburg. A home in Spotsylvania was damaged by lightning. In Stafford County, dime sized hail fell in Heflin. In Fairfax County, dime sized hail fell in Reston and Annandale. Quarter sized hail was reported in Centreville, Fairfax, and just south of Chantilly. In Greenbriar, a spotter reported 30 straight minutes of hail. During this time, large hail up to a quarter in size fell for 10 minutes and dented cars. In Fairfax, a spotter reported a wind gust in excess of 50 MPH. Several trees were downed in the Centreville where a spotter estimated a wind gust of 70 MPH and 2 inches of rain in less than 40 minutes. Lightning set a townhouse in Springfield and a home in Fairfax on fire.

In Prince William County, nearly 2 million dollars in damage was reported in the Manassas area. A wind gust of 67 MPH was recorded at the Manassas Airport. An unofficial wind gust of 89.7 MPH was recorded atop the airport control tower as it was being evacuated. Several buildings on the airport grounds sustained damage, including a hangar which lost a quarter of its roof and a door. Two airplanes were destroyed and three were damaged. A commercial blimp was torn away from its mooring and blown one half mile away from the airport. A person who was trying to secure the blimp was carried along with it and sustained minor injuries when the craft landed. The high winds downed numerous trees in Manassas, Manassas Park, and Sudley. In addition, dime to quarter sized hail fell in Manassas and Manassas Park for over 20 minutes. Extensive roof, siding, and vehicle damage resulted. Very heavy downpours also caused minor flooding on streets. An observer in Manassas Park reported a total of 5.25 inches of rainfall in only 90 minutes.

<b>12 19</b>	<b>1000EST 2000EST</b>	<b>0</b>	<b>0</b>	<b>Excessive Heat</b>
------------------	----------------------------	----------	----------	-----------------------

High pressure sitting off the Atlantic coastline pumped hot and humid air into the region between August 12th and 19th. Temperatures soared well into the 90s during the afternoon each day and heat index values approached 100 degrees. Several high temperature records were broken during the heat wave. At Dulles International Airport, a record high temperature of 98 degrees was reached on the 12th and 13th. On the 18th, a new record high of 97 was set and on the 19th the mercury reached a record setting 95 degrees. At Washington Reagan National Airport, a record high temperature of 99 degrees was set on the 14th. The mercury rose to a record breaking 98 degrees on the 18th and 19th. Since record keeping began in Washington D.C. in 1871, there have only been two other years where a string of 8 consecutive days that reached 95 degrees or above has been recorded.
