DISTRICT OF COLUMBIA

DISTRICT OF COLUMBIA (DC-Z001)

11/03/06 03:00 EST	0	0	Frost/Freeze
11/03/06 07:00 EST	0	0	

A freeze occurred in the early morning of the 3rd. This ended to growing season for the area.

DISTRICT OF COLUMBIA COUNTY

GEORGETOWN	11/16/06 13:37 EST	0	0	Flood (due to Heavy Rain)
NORTHWEST PORTION	11/16/06 18:30 EST	0	0	38.92N, 77.05W ~ 38.95N, 77.07W

Canal Road was flooded near Georgetown. Dalecarlia Road, as well as roads near Sibley Hospital, were closed due to flooding. Several other secondary roads also closed within the northwest quadrant.

A deep low pressure system moved from the Tennessee Valley to the eastern great Lakes on November 16, sweeping a strong cold front across the Mid Atlantic. This system brought widespread moderate to heavy rain to Washington DC near sunrise, then thunderstorms that produced additional heavy rainfall during the early afternoon.

Canal Road was flooded near Georgetown. Dalecarlia Road, as well as roads near Sibley Hospital, were closed due to flooding. Several other secondary roads also closed within the northwest quadrant.

DISTRICT OF COLUMBIA (DC-Z001)

11/29/06 04:00 EST	0	0	Dense Fog
11/29/06 08:00 EST	0	0	

Dense fog occurred on the morning of the 29th across much of the Mid Atlantic.

MARYLAND, Central

SOUTHERN BALTIMORE / BALTIMORE (C) (MD-Z011), PRINCE GEORGES (MD-Z013), ANNE ARUNDEL (MD-Z014), CHARLES (MD-Z016), ST. MARY'S (MD-Z017), CALVERT (MD-Z018)

11/03/06 03:00 EST	0	0	Frost/Freeze
11/03/06 07:00 EST	0	0	

A freeze occurred in the early morning of the 3rd. This ended to growing season for the area.

MONTGOMERY COUNTY

0.88 SW WOODHAVEN	11/16/06 13:10 EST	0	50K	Thunderstorm Wind (EG 55 kt)
	11/16/06 13:10 EST	0	0	38.991N, 77.1416W

Thunderstorm winds knocked down powerlines and damaged a transformer in Woodhaven, MD.

MONTGOMERY COUNTY

GAITHERSBURG	11/16/06 13:10 EST	0	22K	Thunderstorm Wind (EG 50 kt)
SOUTHWEST PORTION	11/16/06 13:15 EST	0	0	39.13N, 77.2W ~ 39N, 77.22W

Thunderstorm winds brought trees down in Gaithersburg and also in the southwest corner of the county near the banks of the Potomac River.

MONTGOMERY COUNTY

SILVER SPG	11/16/06 13:10 EST	0	0	Thunderstorm Wind (EG 50 kt)
	11/16/06 13:15 EST	0	0	39N, 77.05W

Thunderstorm winds brought trees down in Silver Spring, MD.

MONTGOMERY COUNTY

GERMANTOWN	11/16/06 13:15 EST	0	50K	Flood (due to Heavy Rain)
SILVER SPG	11/17/06 00:15 EST	0	0	39.18N, 77.28W ~ 39N, 77.05W

The Northwest Branch rose out of its banks at Route 29. Water covered Old Georgetown Road and Battery Lane near Huntington, MD. More than a dozen water rescues occurred across the county when people became trapped in their cars when trying to cross a flooded roadway. One such rescue was conducted in Germantown along Game Preserve Road.

Deer Creek was out of its banks near Norrisville, causing localized flooding of some subdivision. High water on was reported on roads near Bel Air, with several water rescues of stranded motorists. Two water rescues were conducted near the intersection of Walters Mill and Ady Roads near Bel Air.				
HOWARD COUNTY				
SOUTH PORTION	11/16/06 18:30 EST	0	0	Flood (due to Heavy Rain)
	11/16/06 21:30 EST	0	0	39.18N, 76.95W
Route 32 was closed near the Howard/Carroll County line due to flooding. An elderly woman became trapped in her car in Sykesville on River Road on the Howard/Carroll County line where the South branch of the Patapsco River rose out of its banks.				
BALTIMORE COUNTY				
COCKEYSVILLE	11/16/06 19:30 EST	0	0	Flood (due to Heavy Rain)
	11/17/06 00:30 EST	0	0	39.48N, 76.65W

Roads were closed due to high water in the Cockeysville area.

A deep low pressure system moved from the Tennessee Valley to the eastern great Lakes on November 16, sweeping a strong cold front across the Mid Atlantic. This system brought widespread moderate to heavy rain to the region after sunrise, then strong thunderstorms during the early afternoon. These thunderstorms produced periods of heavier rainfall as well as gusty and isolated damaging winds. Although rain ended across the region during the mid afternoon hours, some locations continued to experience flooding until just after midnight.

Heavy rain across Anne Arundel County closed numerous roadways from the early afternoon until after midnight on November 17th. Some of these roads include Governor Bridge Road and Saint George Barber, Routes 10 and 648 (Baltimore-Annapolis Blvd.) and Burns Crossing Road at Severn Run in the town of Severn. Maryland Route 176 (Dorsey Road) and 648 (Baltimore-Annapolis Blvd) continued to be submerged in about two feet of water until after midnight.

Flash Flooding was reported in Baltimore County and the City of Baltimore. Gunpowder River rose out of its banks, allowing water to flow over the bridge at Second Mine Road. Flash flooding was also reported at Hydes Road and Long Green Pike as well as near White Hall and Gunpowder Falls State Park. Numerous roads were closed across Baltimore County, including a portion of Pulaski Highway (Route 40). Several roads in the City of Baltimore were also closed due to flash flooding. Jones Falls flooded the bridge at Interstate 83 and 41st Street. Other roadways affected by flash flooding include Erdman Avenue on the east side of the city and Caroline and Fleet Streets near downtown.

In Carroll County, water up to 2 feet deep across Twin Arch Road. An elderly woman became trapped in her car in Sykesville on River Road on the Howard/Carroll County line where the South branch of the Patapsco River rose out of its banks. The South Branch of the Patapsco River also rose out of its banks onto Old Frederick Road, about 5 miles west of Woodbine. Route 32 was closed due to flooding near Sykesville. Numerous roads closed due to flooding near Keymar.

Numerous roads were closed across Charles County, especially near La Plata, Port Tobacco, Bryans Road and Waldorf. One roadway closed due to flooding include Billingsley Road between White Plains and Bryans Roads. Buses were forced to return students to school due to flooded roadways.

In Harford County, Deer Creek was out of its banks near Norrisville, causing localized flooding of some subdivision. High water on was reported on roads near Bel Air, with several water rescues of stranded motorists. Two water rescues were conducted near the intersection of Walters Mill and Ady Roads near Bel Air.

Thunderstorms brought damaging winds to Montgomery County between 1:00 PM and 2:00 PM, downing trees and power lines in Woodhaven, Gaithersburg, Layhill, Silver Spring and Bowie. A tree was downed on the Penn Line by a thunderstorm in Bowie. Heavy rain with these thunderstorms produced flooding that continued through early evening across Montgomery County. The Northwest Branch rose out of its banks at Route 29. Water covered Old Georgetown Road and Battery Lane near Huntington, MD. More than a dozen water rescues occurred across the county when people became trapped in their cars when trying to cross a flooded roadway. One such rescue was conducted in Germantown along Game Preserve Road.

In Prince George's County, Routes 301 and 5 were flooded. Several roads were closed near Andrews Air Force Base due to flooding, including a section of the Interstate 495 Capital Beltway. A farm equipment store was inundated by water in Upper Marlboro, MD.

In St. Mary's County, Route 235 and Saint John Road flooded in St. Mary's City, MD.

Tidal flooding occurred during the afternoon and early evening around the time of high tide in Baltimore. Strong onshore winds occurred due to a coastal low pressure system. Flooding of tidal areas and along the shoreline occurred in several communities, including Bowley Bar, Bowley Quarters, Millers Island and near Middle River. Twelve to 18 inches of water was reported to cover roadways in Millers Island and near Bowleys Quarters. Water approached some houses during high tide. There was also some coastal

Part of Lucasville Road was covered by 1 to 2 feet of water after heavy rains moved through the area.

PRINCE WILLIAM COUNTY

WOODBIDGE	11/16/06 14:30 EST	0	0	Flood (due to Heavy Rain)
	11/17/06 16:00 EST	0	0	38.65N, 77.25W

In Prince William County, exit ramps on Interstate 95 were closed due to flooding. US 1 in Woodbridge was closed when Neabsco Creek flooded. Although rain ended that evening, roads remained closed across the county remaining high water into the afternoon hours of November 17.

Storm Data and Unusual Weather Phenomena - November 2006

<u>Location</u>	<u>Date/Time</u>	<u>Deaths & Injuries</u>	<u>Property & Crop Dmg</u>	<u>Event Type and Details</u>
PRINCE WILLIAM COUNTY				
SOUTH PORTION	11/16/06 16:00 EST	0	0	Flood (due to Heavy Rain)
	11/17/06 16:00 EST	0	0	38.6N, 77.43W

Flooding persisted well into the evening in southern Prince William County, with several roads remaining closed due to high water.

A deep low pressure system moved from the Tennessee Valley to the eastern great Lakes on November 16, sweeping a strong cold front across the Mid Atlantic. This system brought widespread moderate to heavy rain to the region near sunrise, then strong thunderstorms around noon. These thunderstorms produced periods of heavier rainfall as well as gusty and isolated damaging winds. Heavy rains began to spread northeast across the Shenandoah Valley during the mid morning hours. In Craigsville in Augusta County, a car was inundated by 3 to 4 feet of water and a water rescue was required due to flash flooding. A number of roads were closed in the western, southern and eastern portions of the county.

Thunderstorms embedded within this large area of rain became severe across Spotsylvania and Rockingham Counties as well as the City of Harrisonburg. Several trees were downed due to thunderstorms in the western portion of Spotsylvania County. A wind gust of 52 knots was reported with thunderstorms in Rockingham County and a tree fell on a house during a thunderstorm in the City of Harrisonburg. Also in Harrisonburg, eight storm doors were blown off their hinges at a greenhouse business.

Minor flooding was reported on roadways across Fairfax County. In Huntington, VA, flooding was reported nearly 30 feet from a cluster of homes. No damage was reported, but several homes were evacuated as a precaution. Other small creeks across the county flooded due to the heavy rain.

In Prince William County, exit ramps on Interstate 95 were closed due to flooding. Roads remained closed due to flooding into the afternoon hours of November 17. US 1 in Woodbridge was closed when Neabsco Creek flooded.

In the City of Manassas, part of Lucasville Rd was covered by 1 to 2 feet of water after heavy rains moved through the area.

The Catoctin Creek flooded out of its banks near Purcellville, VA, in Loudoun County.

In Stafford County, flooding was reported at Boswell's Corner on US 1 in North Stafford.

In Spotsylvania County, school buses were forced to return students to school due to flooding on county roadways between Massaponax Church and Leavells. .

There was a foot of standing water at the intersection of King and Union Streets in the City of Alexandria.

Several secondary roads were closed throughout Madison, Nelson, Rockingham, Shenandoah and Frederick Counties due to flooding.

11/22/06 14:30 EST	0	0	Ice Storm
11/23/06 07:00 EST	0	0	

An early season ice storm crippled the Shenandoah National Park and Skyline Drive, which is located along the Blue Ridge Mountains in Central Virginia. Severe tree damage was sustained due to a heavy accumulation of freezing rain. Pockets of ice accumulations between one to two inches occurred intermittently along the Drive, which spans a length of 105 miles along the crest of the Blue Ridge. The drive was closed for several days to allow crews to begin cleaning up the damages.
