### ATLANTIC NORTH

#### CHESAPEAKE BAY DRUM PT TO SMITH PT VA COUNTY

SOLOMONS ISLAND	03/15/07 15:30 EST	0	0	Marine Strong Wind (MG 25 kt)
	03/15/07 15:30 EST	5	0	38.32N, 76.45W

Five Sailboats overturned off Solomons Island, MD., in Calvert County. Ten teenage sailing students fell into the 40-degree water. A few students were treated at the scene for hypothermia. Emergency response pulled everyone from the water within 10 minutes.

**A cold front approaching the Maryland Chesapeake Bay on March 15th produced gusty winds. Automated surface observations from Annapolis and Patuxent River on western shore of the Bay reported wind gusts between 20 and 25 knots.**

#### CHESAPEAKE BAY POOLES IS TO SANDY PT MD COUNTY

4.0 N RIVIERA BEACH	03/27/07 18:00 EST	0	0	Marine Thunderstorm Wind (MG 39 kt)
	03/27/07 18:15 EST	0	0	39.1778N, 76.52W

A wind gust of 39 knots was reported by buoy FSKM2 and a gust of 34 knots was reported at Villa Julie College near Baltimore.

**A weak cold front crossing over the Maryland Chesapeake Bay triggered strong showers and thunderstorms with gusty winds on the evening of March 27th.**

### DISTRICT OF COLUMBIA

#### DISTRICT OF COLUMBIA (DC-Z001)

	03/07/07 03:00 EST	0	0	Winter Weather
	03/07/07 19:00 EST	0	0	

**A strong clipper system developed over the Great Lakes March 6th and dove south across the Mid Atlantic on March 7th. Snow began along the western edge of the Allegheny Front shortly after midnight on March 7th and spread east overnight.**

Cooperative Observers in Washington DC reported between 1 and 2 inches of snow.

### MARYLAND, Central

#### FREDERICK COUNTY

WALKERSVILLE	03/02/07 06:00 EST	0	0	Flood (due to Heavy Rain)
EMMITSBURG	03/02/07 09:00 EST	0	0	39.48N, 77.35W ~ 39.7N, 77.33W

Emergency Management Officials reported flooded roads in Walkersville, Thurmont and Emmitsburg.

#### CARROLL COUNTY

PLEASANT VLY	03/02/07 06:30 EST	0	0	Flood (due to Heavy Rain)
TANEYTOWN	03/02/07 09:30 EST	0	0	39.63N, 77.05W ~ 39.67N, 77.18W

Several roads were closed due to flooding in Taneytown and Pleasant Valley. A total of seventeen roads were closed due to flooding county wide according to Emergency Management Officials.

**Deep low pressure moving from the middle Mississippi Valley into the Upper Midwest brought a warm front across the Mid Atlantic on the evening of March 1st. A strong cold front crossed the region during the early morning hours of March 2nd. These two systems brought heavy rain and thunderstorms to the region. Roads were flooded in Frederick and Carroll Counties.**

#### EXTREME WESTERN ALLEGANY (MD-Z501)

	03/03/07 20:00 EST	0	0	Winter Weather
	03/04/07 09:30 EST	0	0	

**Snow showers developed during the evening hours of March 3rd and continued through the morning hours of March 4th along and west of the Allegheny Front in the wake of a strong cold front.**

**A SKYWARN Spotter reported 2 inches of snowfall in Frostburg, MD.**

#### FREDERICK (MD-Z004)

## Storm Data and Unusual Weather Phenomena - March 2007

<u>Location</u>	<u>Date/Time</u>	<u>Deaths &amp; Injuries</u>	<u>Property &amp; Crop Dmg</u>	<u>Event Type and Details</u>
	03/06/07 12:20 EST	0	2K	Strong Wind (MAX 43 kt)
	03/06/07 12:30 EST	0	0	

A strong cold front pushed south across the Mid Atlantic during the afternoon of March 5th. While there was no precipitation associated with the front, strong gusty winds affected the region during the afternoon of March 5th and even into March 6th. These strong winds downed trees and power lines in Frederick County on March 6th.

---

**WASHINGTON (MD-Z003), EXTREME WESTERN ALLEGANY (MD-Z501), CENTRAL AND EASTERN ALLEGANY (MD-Z502)**

03/07/07 00:00 EST	0	0	Winter Storm
03/07/07 19:00 EST	0	0	

A strong clipper system developed over the Great Lakes March 6th and dove south across the Mid Atlantic on March 7th. Snow began along the western edge of the Allegheny Front shortly after midnight on March 7th and spread east overnight.

The highest snowfall reports came from Allegany County. Trained spotters in Frostburg, MD., reported 10 inches of snow. Snowfall amounts diminished further east, with an average of 1 to 3 inches reported across the Baltimore metro.

---

**FREDERICK (MD-Z004)**

03/07/07 21:00 EST	0	0	Freezing Fog
03/08/07 06:00 EST	0	0	

A departing low pressure system to the south allowed very cold air to funnel from the north and generate areas of dense fog. With temperatures falling into the teens, fog froze on contact.

Automated Observations from Frederick Municipal Airport reported freezing fog reducing visibilities to a quarter mile or less.

---

**CARROLL (MD-Z005), NORTHERN BALTIMORE (MD-Z006), HARFORD (MD-Z007), MONTGOMERY (MD-Z009), HOWARD (MD-Z010), SOUTHERN BALTIMORE / BALTIMORE (C) (MD-Z011), ANNE ARUNDEL (MD-Z014)**

03/16/07 17:00 EST	0	0	

---

**BALTIMORE COUNTY**

WOODLAWN	03/16/07 13:00 EST	0	0	Flood (due to Heavy Rain)
	03/16/07 15:00 EST	0	0	39.32N, 76.73W

County Officials reported Orems Road at Golden Ring Road closed due to flooding.

---

**ANNE ARUNDEL COUNTY**

GLEN BURNIE	03/16/07 14:00 EST	0	0	Flood (due to Heavy Rain)
	03/16/07 16:00 EST	0	0	39.17N, 76.63W

A Newspaper reported that West Furnace Branch Road was closed due to flooding.

---

**ST. MARY'S COUNTY**

2.0 ESE MECHANICSVILLE	03/16/07 16:00 EST	0	0	Flood (due to Heavy Rain)
	03/16/07 18:00 EST	0	0	38.4189N, 76.6959W

A Trained Spotter reported flooding on Baptist Church Road and Hurry Road near Mechanicsville.

A strong cold front crossed the region on the afternoon of March 15th, ushering in drastically colder temperatures. A low pressure system approached the region that night and moved north along the Atlantic coast on March 16th. As the low approached the region early on the 16th, precipitation became widespread and continued through much day.

Warm air briefly surged ahead of the low pressure system, allowing precipitation to begin in the form of rain. Several roads were closed due to flooding across Anne Arundel, St. Mary's and Northern Baltimore Counties.

## Storm Data and Unusual Weather Phenomena - March 2007

<u>Location</u>	<u>Date/Time</u>	<u>Deaths &amp; Injuries</u>	<u>Property &amp; Crop Dmg</u>	<u>Event Type and Details</u>
-----------------	------------------	----------------------------------	------------------------------------	-------------------------------

Colder air was brought into the region by the low. This forced rain to change to snow and sleet before changing to all snow. Snowfall amounts ranged from 2 to 10 inches. Hazardous driving conditions led to numerous minor car accidents. A vehicle in President Bush's motorcade traveling from Washington DC to the Camp David presidential retreat collided with another car along Interstate 270 in Urbana, MD., in Frederick County. No injuries were reported.

---

### WASHINGTON (MD-Z003), CENTRAL AND EASTERN ALLEGANY (MD-Z502)

03/17/07 02:00 EST	0	0	Winter Weather
03/17/07 18:00 EST	0	0	

Upslope snow showers developed during the early morning hours of March 17th and continued through the late evening along the western slopes of the Allegheny Front in the wake of a strong cold front. The cold front and associated low pressure system brought several inches of snow to the region on March 16th before upslope showers developed several hours later. Snowfall amounts ranged from 3 to 5 inches across Allegany and Washington Counties.

---

### WASHINGTON (MD-Z003), FREDERICK (MD-Z004), CARROLL (MD-Z005), NORTHERN BALTIMORE (MD-Z006), HARFORD (MD-Z007), MONTGOMERY (MD-Z009), HOWARD (MD-Z010), SOUTHERN BALTIMORE / BALTIMORE (C) (MD-Z011), PRINCE GEORGES (MD-Z013), ANNE ARUNDEL (MD-Z014), CHARLES (MD-Z016), ST. MARY'S (MD-Z017), CALVERT (MD-Z018)

03/24/07 19:00 EST	0	0	Dense Fog
03/25/07 07:00 EST	0	0	

Saturated ground and light winds allowed dense fog to develop. Automated surface observations reported visibilities of a quarter mile or less during the late evening hours of March 24th through mid morning on March 25th.

## VIRGINIA, North

---

### AUGUSTA COUNTY

CHURCHVILLE	03/02/07 04:00 EST	0	0	Flood (due to Heavy Rain)
DEERFIELD	03/02/07 07:00 EST	0	0	38.23N, 79.15W ~ 38.2N, 79.4W

Roads were closed in Churchville, including Route 42, due to flooding. Roads were also closed in Sherando and Deerfield due to flooding.

Deep low pressure moving from the middle Mississippi Valley into the Upper Midwest brought a warm front across the Mid Atlantic on the evening of March 1st. A strong cold front crossed the region during the early morning hours of March 2nd. These two systems brought heavy rain and thunderstorms to the region. Roads were flooded in Augusta County.

---

### ALBEMARLE / CHARLOTTESVILLE (VA-Z037)

03/05/07 13:00 EST	0	75K	Wildfire
03/05/07 18:00 EST	0	0	

---

### AUGUSTA / STAUNTON / WAYNESBORO (VA-Z025), ROCKINGHAM / HARRISONBURG (VA-Z026), ALBEMARLE / CHARLOTTESVILLE (VA-Z037)

03/05/07 14:00 EST	0	85K	Strong Wind (MAX 48 kt)
03/05/07 16:00 EST	0	0	

A strong cold front pushed south across the Mid Atlantic during the afternoon of March 5th. While there was no precipitation associated with the front, strong gusty winds affected the region during the afternoon of March 5th and even into March 6th. These strong winds downed trees and power lines across the region, causing several thousand power outages.

Low relative humidity, strong gusty winds and drying fuels lead to critical fire weather conditions on March 5th. Several small brush fires began when strong winds brought down power lines and transformers and produced sparks.

A trailer-mounted manufactured home briefly became airborne on Interstate 81 near Weyers Cave, VA., in Augusta County, before disintegrating along a hundred-yard stretch of guardrail. Sparks from the impact burned approximately one acre of grass. While emergency workers tended to the blaze, a 1,500 pound bale of hay blew off a farm truck and rolled across the interstate. No damage was caused by the bale of hay.

Strong winds brought down a tree on top of some power lines on Boyers Road in Harrisonburg, VA. A small grass fire started from the sparks. The power pole and transformer had to be replaced.

Strong winds downed power lines throughout Albemarle County and the City of Charlottesville. Georgetown Road was closed at Hydraulic Road for most of the afternoon after a downed line caused a fire. About 3,300 customers lost power due to the strong winds.

Albemarle County Fire-Rescue Officers reported about a half-dozen fires were caused by downed power lines. No injuries were reported and many of the fires were quickly contained, however one farm building off Old Lynchburg Road burned.

## WEST VIRGINIA, East

### JEFFERSON COUNTY

SHEPHERDSTOWN	03/02/07 01:00 EST	0	15K	Flood (due to Heavy Rain)
	03/03/07 04:00 EST	0	0	39.43N, 77.8W

On Saturday, March 3rd, two people became stranded in the flood waters when they drove past the "Road Closed" and "High Water" signs on River Road. The occupants were able to get out of their car and wade through the 2 feet of water to get to shore. When a law enforcement officer arrived at the scene to help retrieve the vehicle, he drove an SUV through the water and was able to cross successfully. However, the engine was blown.

Another woman was stranded later in the day in the flooded roadway at the Rattlesnake Run end of River Road.

The South Branch of the Potomac River at Shepherdstown crested at 15 feet after midnight on March 2nd.

**Deep low pressure moving from the middle Mississippi Valley into the Upper Midwest brought a warm front across the Mid Atlantic on the evening of March 1st. A strong cold front crossed the region during the early morning hours of March 2nd. These two systems**
