Automated Observations from Stafford Regional Airport measured a wind gusts of 45 knots. Gusts in excess of 30 knots were also reported at Cuckold Creek..

TIDAL POTOMAC INDIAN HD TO COBB IS MD COUNTY

DAHLGREN	07/10/07 13:45 EST	0	0	Marine Thunderstorm Wind (EG 34 kt)
	07/10/07 13:55 EST	0	0	38.33N, 77.05W

King George County Emergency Management reported trees down in Dahlgren.

High pressure across the western Atlantic brought hot and humid conditions to the Mid Atlantic on July 10th. Showers and thunderstorms developed along and east of the Interstate 95 corridor, including the Washington DC and Baltimore metro areas, in the very hot and unstable air mass ahead of a cold front approaching the region from the Ohio Valley. Some of these storms became severe as they approached the Tidal Potomac River and Maryland Chesapeake Bay, producing wind gusts in excess of 40 knots and even large hail along the western shore of the Bay.

CHESAPEAKE BAY SANDY PT TO N BEACH MD COUNTY

STEVENSVILLE	07/11/07 13:25 EST	0	0	Marine Thunderstorm Wind (MG 34 kt)
	07/11/07 13:30 EST	0	0	38.98N, 76.32W

An Automated Observation from Stevensville, MD., measured a wind gust of 34 knots.

A slow moving cold front moving east across the Mid Atlantic combined with a hot and humid air mass to trigger showers and thunderstorms across the Maryland Chesapeake Bay. One storm moving across the Bay became severe, producing wind gusts in excess of 30 knots. Other strong thunderstorms over the Bay produced wind gusts around 20 to 25 knots.

CHESAPEAKE BAY N BEACH TO DRUM PT MD COUNTY

COVE PT	07/19/07 15:00 EST	0	0	Marine Thunderstorm Wind (MG 50 kt)
	07/19/07 15:10 EST	0	0	38.38N, 76.4W

A buoy at Cove Point measured a wind gust of 52 knots.

A warm and moist air mass settled over the Mid Atlantic as a strong cold front approached the region from the Ohio Valley on July 19th. This allowed scattered thunderstorms to develop across north central Virginia during the early afternoon hours and spread east into Maryland through the evening. Several of these storms became severe, producing wind gusts in excess of 50 knots along the Tidal Potomac River and Maryland Chesapeake Bay.

FREDERICK COUNTY				
5.0 W LIBERTYTOWN	07/16/07 19:15 EST		1K	Thunderstorm Wind (EG 50 kt)
	07/16/07 19:20 EST		0	39.48N, 77.3437W
Frederick County Emergency Management reported trees down west of Libertytown, MD.				
A strong cold front moving east across the Ohio Valley stalled as it moved over the Mid Atlantic. This allowed numerous showers and thunderstorms to develop across the region during the afternoon of July 16th. Many of these storms became severe, producing large hail and damaging winds that downed large trees and power lines. One severe thunderstorm that moved across Harford County produced a tornado.				
CHARLES (MD-Z016), ST. MARY'S (MD-Z017), CALVERT (MD-Z018)				

Storm Data and Unusual Weather Phenomena - July 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	07/17/07 00:00 EST		0	Drought
	07/31/07 23:59 EST		0	

A portion of the Mid Atlantic hydrologic service area experienced severe agricultural drought conditions from July 17th through the end of the month. This area included lower southern Maryland. Using a combination of rainfall measurements and radar precipitation estimates, some locations averaged rainfall totals as high as 6 inches below normal. This led to some jurisdictions restricting water use. Damage estimates were not available due to current harvest progress. Several locations were included in primary natural disaster areas due to reductions in farm production. Sources of information included the Maryland Farm Service Agency and the National Drought Monitor.

CHARLES COUNTY

LA PLATA	07/19/07 14:21 EST		3K	Thunderstorm Wind (EG 50 kt)
COBB IS	07/19/07 14:30 EST		0	38.53N, 76.98W ~ 38.27N, 76.85W

Amateur Radio Operators reported trees down in LaPlata. Law Enforcement Officers reported trees down on Cobb Island and the Route 301 Bridge was closed.

ST. MARY'S COUNTY

2.0 S BUDDS CREEK	07/19/07 14:30 EST		5K	Thunderstorm Wind (MG 52 kt)

A Trained Spotter reported several trees down near Aviation Yacht Club Road south of Budds Creek. Another Trained Spotter reported trees down in Compton and estimated wind gusts up to 70 mph. The Automated Surface Observation at Patuxent River Naval Air Station measured a wind gust of 60 mph.

CALVERT COUNTY

LUSBY	07/19/07 14:50 EST		10K	Thunderstorm Wind (MG 52 kt)
	07/19/07 14:55 EST		0	38.42N, 76.45W

Calvert County Fire and Rescue Department reported numerous trees and power lines down across the southern portion of the county. A buoy at Cove Point measured a wind gust of 52 knots.

HARFORD COUNTY

5.0 S JARRETTSVILLE	07/19/07 15:25 EST		3K	Thunderstorm Wind (EG 50 kt)
JARRETTSVILLE	07/19/07 15:30 EST		0	39.5277N, 76.48W ~ 39.6N, 76.48W

Harford County Fire and Rescue reported trees and power lines down in Stockton and trees down in Jarrettsville.

A warm and moist air mass settled over the Mid Atlantic as a strong cold front approached the region from the Ohio Valley on July 19th. This allowed scattered thunderstorms to develop across north central Virginia during the early afternoon hours and spread east into Maryland through the evening. Storms became better organized as they moved east across lower southern Maryland, eventually forming a bow echo. Surface winds with the bow echo were measured between 60 and 80 mph. These strong thunderstorm winds downed numerous trees and power lines across lower southern Maryland.

WASHINGTON (MD-Z003), FREDERICK (MD-Z004), MONTGOMERY (MD-Z009)

	07/24/07 00:00 EST		0	Drought
	07/31/07 23:59 EST		0	

A portion of the Mid Atlantic hydrologic service area experienced severe agricultural drought conditions from July 24th through the end of the month. This area included Montgomery, Frederick and Washington Counties in central Maryland. Using a combination of rainfall measurements and radar precipitation estimates, some locations averaged rainfall totals as high as 6 inches below normal. This led to some jurisdictions restricting water use. Damage estimates were not available due to current harvest progress. Several locations were included in primary natural disaster areas due to reductions in farm production. Sources of information included the Maryland Farm Service Agency and the National Drought Monitor.

ALLEGANY COUNTY

BARTON	07/25/07 16:54 EST		5K	Thunderstorm Wind (EG 50 kt)
CUMBERLAND	07/25/07 17:00 EST		0	39.53N, 79.02W ~ 39.65N, 78.77W

Allegheny County Emergency Management reported trees and power lines down in Cumberland. A local newspaper reported multiple trees and power lines down as well as large hail from Barton to Cumberland.

An upper level low pressure system drifting northwest towards the Great Lakes and increase southerly flow at the surface combine to trigger isolated showers and thunderstorms across western Maryland. One storm moving over Allegheny County became severe, downing trees and power lines in Cumberland, MD.

ALLEGANY COUNTY

Storm Data and Unusual Weather Phenomena - July 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
WESTERNPORT	07/27/07 13:45 EST		1K	Thunderstorm Wind (EG 50 kt)
	07/27/07 13:45 EST		0	39.48N, 79.05W
Allegany County Emergency Management reported a tree down in Westernport, MD.				
An upper level low pressure system drifted slowly from New England towards the Great Lakes for several days. This combined with a weak surface trough to trigger scattered showers and thunderstorms across the Mid Atlantic. One storm over Allegany County produced damaging winds.				
<hr/>				
WASHINGTON COUNTY				
2.0 NE HAGERSTOWN	07/28/07 20:32 EST		1K	Thunderstorm Wind (EG 50 kt)
	07/28/07 20:32 EST		0	39.6705N, 77.6934W
Washington County Emergency Management reported a tree down at the intersection of Marsh Pike and Leitersburg Pike northeast of Hagerstown, MD.				
<hr/>				
FREDERICK COUNTY				
2.0 S NEW MARKET FREDERICK	07/28/07 21:45 EST		3K	Thunderstorm Wind (EG 50 kt)
	07/28/07 21:55 EST		0	39.3511N, 77.27W ~ 39.42N, 77.42W
Frederick County Emergency Management reported trees down in Ijamsville and Frederick.				
A cold front combined with an upper level low pressure system to trigger showers and thunderstorms along the Blue Ridge Mountains of Maryland during the late evening hours of July 28th. Some of these storms became severe, producing damaging winds in Washington and Frederick Counties.				
<hr/>				
HARFORD COUNTY				
BEL AIR	07/29/07 05:15 EST		0	Hail (0.75 in)
	07/29/07 05:20 EST		0	39.53N, 76.35W
A Cooperative Observer reported penny size hail in Bel Air.				
<hr/>				
HARFORD COUNTY				
BEL AIR	07/29/07 05:20 EST		20K	Thunderstorm Wind (EG 50 kt)
	07/29/07 05:25 EST		0	39.53N, 76.35W
Harford County Emergency Management reported that a roof made of aluminum corrugated sheet metal was torn off building in downtown Bel Air in the 100 block of Business Route 1 and Archer Street. A large party tent was blown down nearby when its support ropes were snapped.				
A cold front combined with an upper level low pressure system to trigger thunderstorms in Harford County during the early morning hours of July 29th. The first thunderstorm became severe, producing damaging winds and large hail. A second storm followed close behind and actually became a wet microburst. Significant wind damage was reported in Bel Air, MD.				
<hr/>				
PRINCE GEORGE'S COUNTY				
OXON HILL	07/29/07 12:40 EST		0	Thunderstorm Wind (EG 50 kt)
	07/29/07 12:40 EST		0	38.8N, 77W
An off duty NWS Employee reported large tree branches down in Oxon Hill, MD.				
<hr/>

	07/29/07 17:55 EST		0	39.68N, 77.75W
Law Enforcement reported trees down in near Maugansville, MD.				
A cold front combined with an upper level low pressure system to trigger numerous showers and thunderstorms central Maryland during the afternoon and evening of July 29th. Several of these storms became severe, producing damaging winds in Prince Georges and Frederick Counties.				
<hr/>				
CHARLES COUNTY				

Storm Data and Unusual Weather Phenomena - July 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
POMFRET	07/30/07 15:15 EST		2K	Thunderstorm Wind (EG 50 kt)
BRYANS ROAD	07/30/07 15:30 EST		0	38.58N, 77.03W ~ 38.63N, 77.07W

Law Enforcement reported trees down in Pomfret and Bryans Road.

CHARLES COUNTY

NANJEMOY	07/30/07 16:05 EST		2K	Thunderstorm Wind (EG 50 kt)
	07/30/07 16:10 EST		0	38.45N, 76.78W

Law Enforcement reported trees down in Nanjemoy, MD.

A slow moving front continued to move south across the Mid Atlantic, triggering scattered showers and thunderstorms during the afternoon and evening. Some of these storms became severe, producing damaging winds across Charles County in lower southern Maryland.

VIRGINIA, North

CLARKE COUNTY

BERRYVILLE	07/04/07 14:58 EST		0	Hail (0.75 in)
	07/04/07 14:58 EST		0	39.15N, 77.97W

Penny size hail was reported in Berryville.

LOUDOUN COUNTY

2.0 NW MIDDLEBURG	07/04/07 15:40 EST		0	Hail (1.25 in)
	07/04/07 15:40 EST		0	38.9904N, 77.7963W

A Trained Spotter measured half-dollar size hail northwest of Middleburg, VA. Branches were also downed at the same location.

LOUDOUN COUNTY

LOVETTSVILLE	07/04/07 15:41 EST		2K	Thunderstorm Wind (EG 50 kt)
	07/04/07 15:50 EST		0	39.27N, 77.63W

Amateur Radio Operators and Trained Spotters reported trees down at Lovettsville Road and Milltown.

FAUQUIER COUNTY

4.0 E HALFWAY	07/04/07 15:45 EST		0	Hail (1.00 in)
	07/04/07 15:45 EST		0	38.92N, 77.6557W

A Trained Spotter measured nickel to quarter size hail at the top of Bull Run Mountain near the Fauquier and Prince William County lines.

LOUDOUN COUNTY

1.0 W MIDDLEBURG	07/04/07 15:45 EST		0	Hail (0.75 in)
	07/04/07 15:45 EST		0	38.97N, 77.7886W

Amateur Radio reported penny size hail west of Middleburg, VA.

PRINCE WILLIAM COUNTY

8.0 W HAYMARKET	07/04/07 15:54 EST		0	Hail (0.75 in)
CATHARPIN	07/04/07 16:09 EST		0	38.82N, 77.7784W ~ 38.85N, 77.57W

Amateur Radio reported penny size hail near Bull Run Mountain north of Haymarket. Penny size hail was also reported near Route 234 and Centers Road in Catharpin.

PRINCE WILLIAM COUNTY

7.0 N HAYMARKET	07/04/07 16:07 EST		0	Hail (1.75 in)
	07/04/07 16:07 EST		0	38.9212N, 77.63W

A Trained Spotter measured golf-ball size hail in northern Prince William County 5 miles south of Gilberts Corner.

FAIRFAX COUNTY

Storm Data and Unusual Weather Phenomena - July 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
CENTREVILLE	07/04/07 16:30 EST		0	Funnel Cloud
	07/04/07 16:30 EST		0	38.83N, 77.42W

Virginia Department of Transportation reported a funnel cloud near Centreville north of Interstate 66.

LOUDOUN COUNTY

ALDIE	07/04/07 16:30 EST		2K	Thunderstorm Wind (EG 50 kt)
	07/04/07 16:35 EST		0	38.97N, 77.63W

A 20 foot tall business sign was downed along Route 50, about a half mile east of Route 606 near Aldie, VA.

LOUDOUN COUNTY

DULLES INTL ARPT	07/04/07 16:32 EST		10K	Lightning
	07/04/07 16:33 EST		0	38.95N, 77.45W

Lightning struck a mobile lounge traveling from Terminal B to the Main Terminal. The lounge had just crossed Taxiway B when a lightning strike caused it to fail. While the lounge operator attempted to re-start the lounge, a second strike traveled through the lounge exiting the chasis by way of the left rear tire. Two windows were blown out and the lounge sustained damage to the tire. The Operator and six passengers were not injured and refused medical treatment at the scene. Information courtesy of Washington Dulles International Airport Management. Damage costs are estimated.

ORANGE COUNTY

3.0 N EVERONA	07/04/07 16:45 EST		0	Hail (0.75 in)
	07/04/07 16:45 EST		0	38.3434N, 77.97W

Penny size hail was reported along the Rapidan River just west of Route 522.

FAIRFAX COUNTY

3.0 E CHANTILLY	07/04/07 16:48 EST		0	Hail (1.75 in)
	07/04/07 16:48 EST		0	38.9N, 77.3743W

A Trained Spotter measured golf-ball size hail near Fair Lakes east of Chantilly, VA.

FAIRFAX (C) COUNTY

FAIRFAX	07/04/07 16:50 EST		0	Hail (1.00 in)
	07/04/07 16:55 EST		0	38.85N, 77.3W

A Trained Spotter estimate quarter size hail in the City of Fairfax.

LOUDOUN COUNTY

1.0 N LEESBURG	07/04/07 16:53 EST		0	Hail (0.75 in)
	07/04/07 17:00 EST		0	39.1345N, 77.55W

Amateur Radio reported penny size hail north of Leesburg, VA.

LOUDOUN COUNTY

LEESBURG	07/04/07 18:55 EST		1K	Thunderstorm Wind (EG 50 kt)
	07/04/07 18:55 EST		0	39.12N, 77.55W

Loudoun County Officials reported power lines down at Church and Loudoun Streets in downtown Leesburg.

Showers and thunderstorms developed during the afternoon and evening of July 4th and moved east across northern Virginia and western Maryland. Some became severe, producing large hail and damaging winds.

NELSON COUNTY

3.0 SSE NELLYSFORD	07/10/07 11:30 EST		5K	Thunderstorm Wind (EG 50 kt)

<p>A cold front combined with an upper level low pressure system to trigger numerous showers and thunderstorms central and northern Virginia during the afternoon and evening of July 29th. Several of these storms became severe, producing damaging winds and large hail.</p>				
WEST VIRGINIA, East				
BERKELEY (WV-Z052), JEFFERSON (WV-Z053)				

Storm Data and Unusual Weather Phenomena - July 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	07/24/07 00:00 EST		0	Drought
	07/31/07 23:59 EST		0	

A portion of the Mid Atlantic hydrologic service area experienced severe agricultural drought conditions from July 24th through the end of the month. This area included Berkeley and Jefferson Counties in the eastern pan handle of West Virginia. Using a combination of rainfall measurements and radar precipitation estimates, some locations averaged rainfall totals as high as 6 inches below normal. This led to some jurisdictions restricting water use. Damage estimates were not available due to current harvest progress.

MINERAL COUNTY

1.0 E KEYSER	07/27/07 13:50 EST		1K	Thunderstorm Wind (EG 50 kt)
	07/27/07 13:50 EST		0	39.43N, 78.9613W

Law Enforcement reported trees down on Knobley Road off Route 46 east of Keyser, WV.

An upper level low pressure system drifted slowly from New England towards the Great Lakes for several days. This combined with a weak surface trough to trigger scattered showers and thunderstorms across the Mid Atlantic. One storm over Mineral County produced damaging winds that downed trees near Keyser, WV.

JEFFERSON COUNTY

HARPERS FERRY	07/28/07 19:15 EST		0	Hail (0.88 in)
	07/28/07 19:15 EST		0	39.33N, 77.73W

Law Enforcement reported nickel size hail in Harpers Ferry, WV.

JEFFERSON COUNTY

HARPERS FERRY	07/28/07 19:15 EST		2K	Thunderstorm Wind (EG 50 kt)
