Storm Data and Unusual Weather Phenomena - June 2021

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
A tree blew down near the intersection of Woodholme Avenue and MD-140 Reisterstown Road. A tree blew down near the intersection of Church Lane and Greenwood Road.				

BALTIMORE COUNTY --- 0.4 N SUNNYBROOK [39.51, -76.57], 0.1 W SWEET AIR [39.52, -76.53]

06/03/21 15:51 EST	0.25M	Tornado (EF1, L: 2.20 mi , W: 120 yd)
06/03/21 15:55 EST	0	Source: NWS Storm Survey

A tornado touched down just north of the intersection of Merrymans Mill Road and MD-146 Jarrettsville Pike, where minor tree damage and snapped tree tops were observed.

The tornado continued moving northeastward producing more significant tree damage as it moved east of MD-146 Jarrettsville Pike towards the southern end of Overshot Court. The most extensive tree damage was noted along Overshot Court where multiple hardwood and softwood trees were uprooted and snapped. About 100 trees were damaged on Overshot Court, with many uprooted trees falling in a convergent, crossing manner and pointed to the west-to-north (generally along and left of the tornado track). At least 20 hardwood trees ranging between 10 and 20 inches in diameter were snapped off about 10 feet above the ground. Some of the uprooted trees also fell towards the east. A house on Overshot Court had siding damage, lost a portion of its eave on the northeast side of the house, had a shutter blown off, and a flagpole blown down. Siding from this house was found 120 yards to the northwest of the house.

Eyewitness accounts were taken from several residents along Overshot Court. They all relayed a similar story of relatively quiet conditions followed by a loud and incessant roaring sound, with reduced visibility due to heavy rain and swirling winds. One resident texted that they entered their basement when they heard the loud roar, with the timestamp of that text being 4:57 PM EDT. All residents noted the damage occurred quickly lasting well less than one minute.

As the tornado moved northeastward, it crossed wooded areas south of the Carroll Manor Recreation Council Building on MD-145 Sweet Air Road, where limited tree damage was noted. No damage was noted along Fox Run Court, but as the tornado crossed the 14000 block of Blenheim Road, several trees were damaged; several were uprooted and several were topped. One large 2-foot-in-diameter tree was uprooted facing toward the west, while a trampoline from a residence was blown over 200 yards toward the east, and several softwood pine trees were snapped. The large uprooted tree damaged a section of a covered porch.

The tornado produced only minor tree damage as it moved northeastward from Blenheim Road, and may have lifted briefly as it crossed MD-145 Sweet Air Road just west of Manor Road. As the tornado crossed Manor Road just north of MD-145 Sweet Air Road, minor tree damage was noted mainly with mainly a few large tree branches down.

Farther to the northeast, the tornado produced tree damage to a residence at the end of Cremson Drive off of Manor Road. A large hardwood tree about 20 inches in diameter was twisted off 10 feet up from the ground. A resident at this location described hearing a loud sound akin to a freight train and observed the tornado cause the aforementioned damage. The resident noted he was in his basement because of a Tornado Warning, with the damage occurring 5 minutes after his phone had alerted him to the Tornado Warning.

No further damage was noted to the northeast of the location on Cremson Drive, and the tornado likely lifted before crossing Maple Ridge Court.

BALTIMORE CITY (C) COUNTY --- 0.9 SE LEAHIGH [39.36, -76.69]

06/03/21 15:52 EST	0	Hail (1.00 in)

Storm Data and Unusual Weather Phenomena - June 2021

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

Cub Hill Road was closed due to flooding and debris near Cromwell Bride Road and Glen Arm Road.

A slow moving cold front dropped into the area from the northeast. The airmass was very warm and humid ahead of the boundary, and that led to the development of showers and thunderstorms with heavy rainfall. The storm motion was slow due to light winds aloft, so the heavy rain led to instances of flooding and flash flooding.

BALTIMORE COUNTY --- 0.1 N RUXTON [39.40, -76.65], 0.2 NE RUXTON [39.40, -76.65], 0.1 NE RUXTON [39.40, -76.65], 0.1 NNE RUXTON [39.40, -76.65]

	06/11/21 17:28 EST	0	Source: Department of Highways

MD-224 Riverside Road was closed due to flooding at Maryland Point Road.

A slow moving cold front continued to drop to the south and west, but low pressure developed along the boundary and there was still anomalously high amounts of moisture in place. Therefore, more heavy rain developed and this led to instances of flooding and flash flooding.

GARRETT COUNTY --- 1.8 SSW REDHOUSE [39.28, -79.49]

	06/13/21 11:34 EST	1K	Thunderstorm Wind (EG 50 kt)

Around 9:44 PM, a severe thunderstorm produced a wind gust around 70 MPH in Norwood Heights/Yale Heights, Maryland, in the southwestern portion of Baltimore City. The gust uprooted a few trees in the community, and snapped several large branches. One tree fell on and crushed a parked vehicle. No structural damage to homes was noted by the National Weather Service or emergency management. Along MD-372 Wilkins Avenue, across from the cross street of Calwell Road, three large trees were uprooted on the edge of Loudon Park Cemetery. All damage was blown in one direction from the severe wind gust, toward the southeast. Peak winds were estimated to have been 70 MPH.				
ANNE ARUNDEL COUNTY --- 0.7 NNE BROOKLYN PARK [39.23, -76.61]

BALTIMORE COUNTY --- 0.1 SE EDGEMERE [39.23, -76.45]				
	06/14/21 21:05 EST		0.10M	Thunderstorm Wind (EG 65 kt)
	06/14/21 21:20 EST		0	Source: NWS Storm Survey
Around 10:15 PM, a severe thunderstorm produced another, stronger damaging wind gust over Edgemere, Maryland. This most significantly impacted the community along Jones Creek, and then to the southeast along North Point Road. The hardest hit areas were along Waldman, Hughes, and Geise Avenues. About six to twelve large trees were uprooted in various areas in this community, and several large branches were snapped, in addition to numerous downed small branches and leaf debris. Some homes were damaged by falling trees and branches. As the gust moved southeastward, it snapped two power poles along North Point Road near the intersection with Avenue C. However, no damage was noted to trees and farm sheds across the street from the poles. All noted damage was due to a wind gust blowing from the northwest toward the southeast. Peak winds were estimated to have been 75 MPH. At least one fell onto a structure near the intersection of Lincoln Avenue and Shady Grove Circle.				
BALTIMORE COUNTY --- 0.2 ENE ESSEX [39.32, -76.48]

	06/11/21 01:00 EST		0	Source: Department of Highways
Turkey Ridge Road around VA-650 was closed due to high water.				
A slow moving cold front dropped into the area from the northeast. The airmass was very warm and humid ahead of the boundary, and that led to the development of showers and thunderstorms with heavy rainfall. The storm motion was slow due to light winds aloft, so the heavy rain led to instances of flooding and flash flooding.				
CULPEPER COUNTY --- 2.6 W LAKOTA [38.58, -77.92], 2.6 W LAKOTA [38.58, -77.92], 2.4 W LAKOTA [38.58, -77.91], 2.4 W LAKOTA [38.58, -77.91]

	06/10/21 22:00 EST		0	Source: Department of Highways
US-50 was closed due to high water near WV-93 New Creek Drive. New Creek was out of its banks.				
A slow moving cold front dropped into the area from the northeast. The airmass was very warm and humid ahead of the boundary, and that led to the development of showers and thunderstorms with heavy rainfall. The storm motion was slow due to light winds aloft, so the heavy rain led to instances of flooding and flash flooding.				
JEFFERSON COUNTY --- 0.4 NNE BOLIVAR [39.33, -77.75], 0.2 E BOLIVAR [39.32, -77.75], 0.6 ENE BOLIVAR [39.32, -77.74], 0.6 SW HARPERS FERRY [39.32, -77.74]				
	06/11/21 15:12 EST		0	Flood (due to Heavy Rain)
	06/11/21 17:12 EST		0	Source: 911 Call Center
Multiple roads were closed near Harpers Ferry due to flooding, including parts of Route 340 and intersecting roads.				

Storm Data and Unusual Weather Phenomena - June 2021

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
