 -NOAAPort
 Other NWS Partners and Employees

From: Mark Glaudemans
 Chief, Water Resources Services Branch

Subject: Termination of the River and Lake Forecast Product (RVD),
 Effective April 21, 2023

Effective April 21, 2023, the NWS will discontinue the River and Lake Forecast product. This product provided a table containing hydrologic forecasts and observations in Standard Hydrometeorological Exchange Format (SHEF) and was issued as frequently as once per day or as infrequently as once per week.

More frequently updated hydrologic forecasts and observations in tabular, XML, and RSS formats are available via the Advanced Hydrologic Prediction Service (AHPS) website at water.weather.gov. The NWS Integrated Dissemination Program (IDP) is also providing web services of AHPS information at [https://idpgis.ncep.noaa.gov/arcgis/rest/services/NWS Observations/ahps_riv_gauges/MapServer](https://idpgis.ncep.noaa.gov/arcgis/rest/services/NWS_Observations/ahps_riv_gauges/MapServer)

If you have any questions, please contact:

Daniel Roman
Hydrologist
Water Resources Services Branch
Email: daniel.roman@noaa.gov
