

StormReady

Community - Supporter

What is StormReady?

StormReady helps arm America's communities with the communication and safety skills needed to save lives and property--before, during and after the event. StormReady helps community leaders and emergency managers strengthen local safety programs. No community is storm proof, but StormReady can help communities save lives.

- Promote the importance of public readiness through community programs
- Develop a formal hazardous weather plan encompassing all components of the operation

NWS StormReady® Program
Working Toward a Weather-Ready Nation

StormReady

Radford University, VA, StormReady Supporter Ceremony

Being part of a **Weather-Ready Nation** is about preparing for your community's increasing vulnerability to extreme weather and water events. Americans live in the most severe weather-prone country on Earth. You can make sure your community is StormReady®. Some 50 percent of all Presidential declared disasters are weather related, leading to around 500 deaths per year and nearly \$10 billion in damage. The StormReady program helps all America's communities with the communication and safety skills needed to save lives and property—before, during and after the event. StormReady helps community leaders and emergency managers strengthen local safety programs.

StormReady communities, counties, Indian nations, universities and colleges, military bases, government sites, commercial enterprises and other groups are better prepared to save lives from the onslaught of severe weather through advanced planning, education and awareness. No community is storm proof, but StormReady can help communities save lives.

StormReady uses a grassroots approach to help communities develop plans to handle all types of extreme weather—from tornadoes to winter storms. The program encourages communities to take a new, proactive approach to improving local hazardous weather operations by providing emergency managers with clear-out guidelines on how to improve their hazardous weather operations. Applying is easy. To be officially StormReady, a community must:

- StormReady Home
- How to Become StormReady
- Why Become StormReady
- StormReady Communities
